

**REMARKS**

Favorable reconsideration of this application is respectfully requested. Claims 32 and 35 having been cancelled and new claims 36 - 52 having been added, claims 31, 33, 34 and 36 - 52 are now pending in this application.

The indication in the Office Action that claim 32 would be allowable if rewritten in independent form is noted with appreciation. By this amendment, the limitations of claim 32 have been incorporated into claim 31. Accordingly, immediate allowance of claims 31, 33 and 34 is deemed appropriate and is respectfully requested.

With respect to new claims 36 - 52, it is noted that each of those claims recites:

“an electrical switch having structure movable between an on position and an off position, the electrical switch having a portion exposed to ambient radiation upon installation,

an entrance aperture on the movable structure of the electrical switch, the entrance aperture configured to admit a portion of the ambient radiation to a detector for sensing changes in ambient radiation”

Accordingly, it is respectfully submitted that new claims 36 - 52 are allowable for the same reasons as claim 31.

Should the Examiner desire a telephonic interview to resolve any outstanding matters, the examiner is sincerely invited to contact the undersigned at (631) 501-5709.

Respectfully submitted,
